

**1. From Martel upholstery:**

In its Richmond showroom Martel upholstery has a wide range of fabrics from which you can select. Martel is very happy to help you match your fabric with your furniture pieces and your home interior. Once you have made your decision Martel upholstery will then order the fabric from the fabric house. For larger fabric orders Martel upholstery may ask you to pay upfront the cost of the fabric. This will form the basis of your deposit on your upholstering project.

**2. From a fabric house**

You can select fabrics directly from a fabric house and Martel upholstery can give you a list of fabric houses which you may like to visit. Fabric houses will not sell you fabric directly so you should note the fabric series, name and colour so that Martel upholstery can order on your behalf
